DETAILED ACTION

Drawings

1. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the claimed "providing, for each satellite, an ultra fast time hopping wireless---" and "causing the individual packets or pulses to be short---" in claims 1-4 must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

2. The proposed drawings correction to figures 1-4 was received on 6/7/04. These drawings are by the Examiner.

Response to Amendment

3. In response to Applicant's argument and amendments with respect to office action mailed on 3/11/04 the following actions have been taken:

The objection to the drawings, figures 1-4, to be labeled as "prior art" has been withdrawn;

The 112 1st paragraph rejection to claims 1-4 has been withdrawn; and

The art rejection to claims 1-4 has been withdrawn.

4. As to applicant's argument with respect to the objection of the drawing not showing the claimed subject matter in claims 1-4, Examiner still believes that the

Art Unit: 2631

claimed steps for "providing, for each satellite, an ultra fast time hopping wireless---" and "causing the individual packets or pulses to be short---" is not shown in any of the figures, figures 5A and 5B, as argued by the Applicant.

Allowable Subject Matter

5. Claims 1-4 are allowed.

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. US patent numbers 4,188,578, 6,345,066, 6,381,053 and 6,560,450 issued to Reudink et al., Haartsen, Fathallah et al., and Rosenberg et al. respectively disclose an inter-satellite communication of packet.

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
